

## SMURF Workshop: Survey Methods and their use in Related Fields

**20-22 August 2018**

We aim at gathering researchers working in the field together with researchers who have used the theory of sampling in finite population in a different field of Science.

The goal of such an event is to review the state-of-the-art methods as well as to shed the light on some future perspectives of survey sampling, one of the most ancient field of statistics.

### Confirmed Speakers:

- **Simon Barthelmé** (CNRS – Université Grenoble-Alpes)
- **Yves Berger** (University of Southampton)
- **Patrice Bertail** (Université Paris X - Nanterre)
- **F. Jay Breidt** (Colorado State University)
- **Yann Busnel** (IMT-Atlantique, Rennes)
- **Guillaume Chauvet** (ENSAI, Rennes)
- **Lorenzo Fattorini** (Università degli Studi di Siena)
- **Mathieu Gerber** (University of Bristol)
- **David Haziza** (Université de Montréal)
- **Vincent Loonis** (INSEE, Paris)
- **Hendrik P. Lopuhaä** (Delft University of Technology)
- **Jean Opsomer** (Colorado State University & Westat)
- **Takumi Saegusa** (University of Maryland)
- **Yves Tillé** (Université de Neuchâtel)

**Price** 250 CHF (includes coffee breaks, lunches and a social dinner on Tuesday)

**Date** 20-22 August 2018

**Venue** University of Neuchâtel  
Auditoire Abraham-Louis Guillaume  
Rue Emile Argand 11  
2000 Neuchâtel

**Registration** Until 31<sup>st</sup> July, by email: [messagerie.istat@unine.ch](mailto:messagerie.istat@unine.ch)
